

# Raychem JBU-100

## JUNCTION BOX FOR MODULAR SYSTEM

(JBU-100-L-E shown with light)

The JBU-100 kit is designed to connect power to up to three Raychem BTV, QTVR, XTV, KTV or VPL industrial parallel heating cables and is approved by PTB for use in hazardous locations.

Innovative Spring-type terminals provide fast installation and safe, reliable, maintenance-free operation.

The box is part of the modular component system, it allows for maximum flexibility and can be either wall or pipe mounted.

Connection kits (M25) and insulation entry kits have to be ordered separately. The box is offered in two basic versions customised to local installation practices.

All kits are also available as a lighted version (-L). These include a unique light module with a superbright green LED that simply plugs into the terminals, and a lens in the lid. This provides indication that power is available in the box.

### DESCRIPTION

#### JBU-100-E JBU-100-L-E

This box is for use in Europe and provides four M25 threaded entries, stopping plugs and one plastic power cable gland.

#### JBU-100-EP JBU-100-L-EP

This box is for use in Europe and provides four M25 threaded entries, an earthing plate and an external earth stud. It is designed for use with armoured power cables.

### KIT CONTENTS

1 junction box with terminals  
1 light module (for -L only)  
1 M25 gland for 8-17 mm diameter power cable  
2 M25 stopping plugs

1 junction box with terminals with earth plate and external earth stud  
1 light module (for -L only)  
2 M25 stopping plugs
